

essential cane

FlavorStorm®, located in Woodinville, Washington, specializes in All Natural flavor-enhancing technologies. Born from the desire to create new flavor pairings, a wide variety of innovative gourmet products has come to life.

Operating in a dedicated production facility, flavors are fused, blended, smoked and enhanced. Our commitment to quality often requires exhaustive searches for just the right components. Equally important are the processes and techniques developed to produce our finished products.

Flavor is fun. FlavorStorm is obsessed with it. Flavored sugars are incredible; why not use the best ingredients to create them? Why stop with the standard flavors? Smoked spices? Yes! Smoking both adds a new dimension and enhances the natural flavors in spices. We push the limits of flavor combination and the results are extraordinary.

Essential Cane® is flavored sugar in its purest form. Simply two ingredients; organic sugar bonded with an All Natural mate. Raw sugar perfectly complements each flavor.

Only the highest quality ingredients are used. Red Oregon Raspberries, Korintje Cinnamon & Tahitian Vanilla Beans are just a few of the tempting flavors available. More unique flavors include Sweet Onion, Habanero and Ginger.

Essential Cane is opening doors to exciting new uses for sugar. From fresh & fruity to rich & savory, use these on desserts, to rim the glass of your favorite drinks, or when grilling meat and seafood. This is what your taste buds have been longing for.

*Essential Cane is also available in bulk.

Raspberry: Red Oregon Raspberries are the star ingredient in this beautiful, fuchsia-colored sugar. The color alone makes this sugar perfect for topping sweets. The flavor makes it phenomenal.
